

NuView[®] Solution Expansion

Integrate Surveying to Strengthen Employee Insights and Experience
Powered by ResponseTek

Obtain Employee Insights | Improve Communication | Drive Organizational Improvement

Leverage Surveying to Assess Employee Sentiment

Understanding employee experience is continuing to increase in importance to the C-Suite. A structured program will provide a complete picture of employee experience.

What's Included

The Voice of Employee capability, powered by ResponseTek, includes:

- Branded, customized surveys that can be tailored to fit specific needs
- Real-time dashboards and scorecards to summarize survey results
- Analytics to drill into segments and details
- Notifications when survey responses are received so you can take timely action
- Integrated workflow and action management to drive follow-up and improvement

How it Works: NuView Powered by ResponseTek

Employee Relationship Insights

- Distribute secure, recurring surveys to all employees to track overall satisfaction benchmarks
- Control direct survey results access by Department/Manager
- Analyze results to identify satisfaction drivers and opportunities for improvement

Employee Listening Posts

- Provide an "Always On" set of digital suggestion boxes to ensure your employees know they can provide feedback anytime
- Embed on your company Intranet
- Utilize in-office posters/signs with QR codes

Employee Journey Tracking

- Utilize structured surveys as part of your hiring process to enable efficient qualification processes (e.g., behavior surveys)
- Assess onboarding (e.g., after 4 weeks)
- Measure key investments such as training sessions

Strengthen Employee Insights and Experience

"With Ignite Prime, customers advance digital transformation across their organization with unprecedented customer-friendly economic terms. Ignite Prime helps customers ignite better business performance by stretching their budgets to achieve more. Or as we like to say, deliver new capabilities that are Powered by Prime."
