NuView HRMS

DEPLOYMENT

SaaS

“The system and the data we analyze is an integral part to help us grow and manage our global business. NuView Systems’ easily configurable platform has helped streamline and evolve processes.”

Summary

IgniteTech’s NuView HRMS solution is used by this communications company to track each office on a global scale. All offices have different employee rules, languages, holidays, time off and vacations. The global approach and advanced analytics are a perfect fit for this growing, global, mid-market company.

Why NuView

This communications company needed a core HR solution with global capabilities that was flexible, easy-to-use and affordable. They selected IgniteTech’s NuView Core HRMS for its affordability as well as its ability to meet and exceed the business’s key global needs.

Customer Benefit

NuView Core HRMS has made it easy to access information and make decisions faster. It provided a tailored approach to the business’s needs through customizations and legal and cultural expertise to management and individual global offices from a human resources perspective, something that is essential to the company’s global success and growth.

Customer Outcome

Using IgniteTech’s NuView configurable system, the corporate human resources team in Washington, DC is able to touch every location and employee. On a global level, NuView has helped this communications giant manage its large and diversified workforce in a way that enhances their entire bottom line and organization. Finally, NuView allows the HR department to manage a global company from one system — an invaluable attribute to the human resources team.

Solution Benefits

- Boost productivity, streamline workflows, manage payroll and align human resource programs and initiatives
- **NuView Human Capital Management:** Manage and organize a global workforce from a unified HR Management platform
- **NuView CORT Payroll:** Address full-spectrum enterprise payroll needs with the flexibility, control and insight needed to support the unique aspects of any organization
